Flash Alert: Trimming One Position for a Quick 40% Gain

Going forward, if hypergrowth stocks continue to soar like they've been soaring, we will continue to do some trimming on the way up. [Read More](#)

ALERTS | June 25, 2021

Flash Alert: Time to Take Some Much-Deserved Profits on Virgin Galactic Stock

The future here is bright. But the stock is now fairly valued, and so we are shedding exposure for a huge gain. [Read More](#)

ALERTS | June 24, 2021

Flash Alert: Raking In Rapid Profits of 40% and 50%

Our reason is simple: We like to buy undervalued stocks, sell a little bit of them when they become fairly valued, and exit them entirely when they become overvalued. [Read More](#)

ALERTS | June 21, 2021

Flash Alert: Buying the Dip in a Company Creating a New Virtual World

With some 4 billion buildings and 20 billion spaces in the world, and the company having virtualized only 4.9 million of them, there's a lot of long-term potential here... [Read More](#)

ALERTS | June 16, 2021

Flash Alert: Taking Profits in a Stock up 70% in 3 Months

On bad days for hypergrowth stocks, we buy. On good days, for hypergrowth stocks, we sell. Our strategy is that simple. [Read More](#)

ALERTS | June 15, 2021

Flash Alert: Buying the Energy Drink Company of the Future With 10X Potential

As consumer behavior globally shifts toward healthy eating, we are shifting toward the one energy drink-maker that's aligned with the right long-term secular growth trends. [Read More](#)

ALERTS | June 8, 2021

Flash Alert: Selling One-Third of ContextLogic

ContextLogic has been great to us in the days since we've added it, which is why I want to return the favor to shareholders with some solid 50%+ gains. [Read More](#)

ALERTS | June 7, 2021

Flash Alert: Buying the World's Most Exciting AV Startup Before Everyone Else

Want to invest in great companies? Invest in great people — because great people build great products and services, which constitute great companies. [Read More](#)

ISSUES | June 4, 2021

Your Window of Opportunity to Invest in the Future Is Closing

We firmly believe our companies will reshape the world, and that their stock prices will soar 2X... 5X... even 10X. But near-term trading action has not reflected this long-term optimism recently. That's all about to change. [Read More](#)

ALERTS | May 27, 2021

Sell Alert: It's Time to Take Some Profits on Our Successful Roblox Position

While our investment strategy is built for the long haul, we have also created quantitative models that allow us to reap small rewards along the way. That way, we're always making money. [Read More](#)
